FANCY MEETING YOU

Meetings where we hope to see you!

How your peers rate our workshops

Hands-on cadaver labs for facial & body-contouring implants

We think our two-day *Masters Educational Series* workshop is absolutely terrific.

With a great mix of lectures, hands-on training and demos, our expert faculty guides you through advanced surgical

We listen to the feedback of our valued customers to ensure our products remain as viable as possible when it comes to achieving your aesthetic solutions.

- We responded to surgeon requests for facial implants made of solid ePTFE.
- We added textured styles to our gluteal, pectoral and calf implant lines after hearing your feedback.

AND NOW...

YOU ASKED AND WE LISTENED!
Box labels will now display implant volume

To accommodate clinician requests, we're making a change to our body-contouring implant boxes.

From now on, the label of each newly boxed body-contouring implant will include the implant's volume. This change enables quick verification of the product volume without having to unseal the box.

WE'RE COMMITTED! Keep asking and we'll keep listening to ensure Implantech makes the most sense for your practice.

techniques for the most pleasing results.

But don't just take our word for it. **Check out all the wonderful comments** from your colleagues, such as:

DAY 1: *Facial Implants*

"This is an awareness shifting course. Great tips and knowledge that would definitely improve my patient outcomes." – A.G., MD

"Such a great course: Education and then immediate cadaver lab to 'lock in' the lessons you just learned." – C.S., MD, FACS

DAY 2: *Body-Contouring Implants*

"Great course! ... I have a lot more confidence in offering body contouring options using implants to my patients." – O.B., MD

"It was a great time expended, learned a lot. It'll be very helpful in my career." – I.A., MD

In addition to their comments, attendees rated various workshop aspects on a scale of 1 (lowest) to 4 (highest). Every 2019 participant rated the following with a 4:

- Well-paced with sufficient breaks
- Content was relevant and comprehensive
- Lab portion was a useful learning experience
- Faculty was knowledgeable, well-prepared and responsive to questions

Come see for yourself how our Las Vegas cadaver workshops are a sure bet to give your practice a super boost.
