IMPLANTECH SURGICAL TECHNIQUE VIDEOS

Learn from the experts!

At Implantech, we've created a broad range of innovative, effective implants for both facial and body-contouring needs.

When properly used, these implants can be life-changing for patients, giving them a more desirable, aesthetic appearance along with greater self-confidence.

To help ensure surgeons know the most current, effective implant techniques.

We offer procedural videos that let you tap

True standouts for both women and men

When your patient comes to you for shapelier calves, turn to Implantech for high quality **ContourFlex™ calf implants** made of solid silicone.

We offer numerous styles and sizes designed to achieve what may be unattainable by, say, exercise or diet.

For women, this generally means a more pleasing calf-to-thigh proportion, while men typically seek greater calf bulk.

ContourFlex™ Calf Implant
ORIGINAL SMOOTH STYLE

Adds mass and definition to the calf. Choose this or any style for aesthetics or to help correct trauma or disease related deformity.

ContourFlex™ Calf Implant
AIACHE STYLE

- Available in both textured and smooth surfaces
- Large variety of sizes to ensure desired shape
- Soft durometer

ContourFlex™ Calf Implant
CARLSEN STYLE

- Textured surface
- Available in both left and right forms
- Soft durometer

In conjunction with their natural look and feel, ContourFlex™ calf implants provide a seamless transition along with predictable, symmetric and long-term volume.
