RESOURCES

USEFUL INFORMATION FOR YOU AND YOUR PRACTICE

You can always count on Implantech for innovative products like facial and body-contouring implants, silicone sheeting and tubing, scar management, surgical accessories and others.

In addition, we also strive to arm you with invaluable information to benefit your practice. Just check out our [Resources](#) page at implantech.com to discover a cache of helpful support. For example:

Step-by-step videos plus written guides and tips provide surgical

Whether one is young or not so young, flat cheeks can create a tired and misleadingly older look. Moreover, they can cause other facial features to seem out of balance.

Plus, an aging face may also suffer from a sunken, hollowed midface caused by soft-tissue loss under the cheekbones. It's especially notable after a facelift when the skin is pulled tighter.

For patients with either or both of these indications, it's Implantech to the rescue!

We offer [midface implants](#) designed to provide volume without the fuss of guesswork or being resorbed like injectables.

For example, the following before-after photos illustrate how our *Conform Terino Malar Shell*® (shown

here) restored volume to the patient's otherwise flat cheeks. As a note, the Conform style's grid backing enables a more flexible, contoured fit.

We add new items on a regular basis. But if you don't find what you're looking for, just contact another important Implantech resource -- our friendly customer service team at 800.733.0833.

Other Implantech midface implants include:

Conform Binder Submalar[®] Implant: Augments the area beneath the cheekbone.

This is particularly useful with a facelift to help prevent a gaunt, skeletal look.

Combined Submalar Shell[™]: Incorporates features of both the Terino Malar Shell[®] and Binder

Submalar[®] Implant to augment the entire midface.

Conform[™] Midfacial Implant: Augments the soft submalar tissue to fill midfacial hollows while

enhancing the entire cheekbone. The grid backing ensures flexible, secure placement.

Check out implantech.com for more info on these and other innovative midfacial implants.
