### FANCY MEETING YOU

Meetings where we hope to see you!

### FLOWERS TEAR TROUGH<sup>®</sup> IMPLANTS

*For eliminating dark circles  
under the eyes*

When fat accumulates as bags beneath the lower eyelids, shadowing can appear as dark circles beneath the eyes.

Even cutting away the bags can still leave the patient with lower eyelids that look hollowed out.

So for your patients who present with bags and dark circles, our **Flowers Tear Trough<sup>®</sup> implant** can be a real game-changer.

### Temporal Shell Implants

For augmenting  
hollowed temples

For your patients who present with hollowed or sunken temples, Implantech's *Temporal Shell* implants can make all the difference.

Our implants are designed to provide volume and shape for concave temples to enable a more aesthetic appearance.

*Photos courtesy of Barry L. Eppley, MD, DMD*

Made of very soft, supple silicone, Temporal Shells are tapered at the top and thicker at the bottom, helping them blend seamlessly into the temple region.

#### *Standard and Extended Versions*

Our **Standard** version conforms to the typical temporal skeletal borders. And for those who need it, the **Extended** version provides volume along the entire side of the forehead.

Choose from Standard and Extended versions  
*Designed by Barry L. Eppley, MD, DMD*

Check out this **Surgical Guide** written by the surgeon who designed the implant. And

It fills the suborbital groove beneath the bags, creating a smooth transition from the lower eyelid area to the cheek. This helps transform an older, tired look into a more vibrant, youthful appearance.

Check out the below results that were provided courtesy of **Louis William Apostolakis, MD.**

We also offer the **Extended Flowers Tear Trough®** that continues augmentation into the cheek area.

**Contact Implantech** for more information about this or any of our other industry-leading facial implants.

if you **register on our website**, you'll also have access to the surgical technique video.

Whether you choose the Standard or Extended style, the Temporal Shell offers the look and feel of natural muscle or fat tissue.

**Contact us** for more information about our innovative Temporal Shell implants.
