### Widening Mandibular Angle Implant

Google-search "strong jawline" and you'll turn up numerous reasons why people believe it to be a desirable trait.

Assertiveness, beauty, power, confidence, success—whatever their reasons, some patients desire a stronger-looking jawline..

Oftentimes, this requires a wider, more clearly defined jaw angle. And we've got just the thing!

**The Solution** – Implantech's *Widening Mandibular Angle (WMA) implant*.

With less lateral projection than our Conform™ Mandibular Angle, the WMA features a wider, more defined angle prominence.

Its extended mandible and shortened ramus edges help with a more ideal fit to the patient's natural jaw angle.

## Advanced Techniques Using Facial & Body Contouring Implants

2023 brings you and your colleagues a brand new round of our popular *Masters Educational Series* workshops.

At a state-of-the-art cadaver lab in Las Vegas, expert instructors impart the latest techniques for using solid silicone implants.

You'll get step-by-step instruction for achieving aesthetic, long-lasting outcomes for both facial and body-contouring situations.

**After classroom discussion, your cadaver workshop includes:**

**HANDS-ON**

*Saturday*

**FACIAL**

- Chin and jaw angle implants
- Malar and submalar implants
- Paranasal and nasal implants
- Temporal Shell Implant

**OBSERVE**

*Sunday*

**BODY CONTOURING**

- Gluteal, pectoral & calf implants

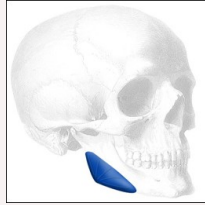

Also discussed on both days:

- Patient-specific implants
- Challenging cases
- Managing complications

Upon conclusion of the course, you'll receive a Certificate of Completion plus a "Course Certified" icon for prominent display on your website.

**Sign up for one or both days in either July or November, but make sure you grab this opportunity in 2023!**

angle implants can be placed either through an intraoral or external approach. However, the vast majority are placed through the mouth to avoid neck scars as well as the risk of facial nerve injury."
