Using Facial & Body-Contouring Implants

The Masters Educational Series

Learn from the experts

There's no time like the present to add a new dimension to your practice.

So join us in Las Vegas at the *Medical Innovations Training Institute*, a state-of-the-art cadaver lab just 20 minutes from the famed Strip.

PowerFlex™ Plus Pectoral Implant

There are a lot of reasons why men seeking a more defined chest can't seem to get there. Genetics, hormonal factors, lack of targeted exercises and diet can all be part of the problem—plus, everyone's body is different.

This is especially noteworthy for those desiring a truly ripped look.

The Solution – Implantech's *PowerFlex™ Plus Pectoral Implant*.

Our *PowerFlex™ Plus* is designed for dramatic pectoral muscle definition.

It provides the ultimate augmentation throughout the whole chest, from just under the clavicle to the lower edge of the pectoralis major muscle.

The Placement

According to Barry L. Eppley, MD, DMD, "Pectoral implants are always placed under

There, experts in our popular *Masters Educational Series* workshop impart invaluable instruction for augmenting the face and body with solid silicone implants.

Your Esteemed Faculty

JUL & NOV  William J. Binder MD, FACS	JUL & NOV  Barry L. Eppley MD, DMD	JUL & NOV  Shahin Javaheri MD
NOV  Michael P. Morrisette MD, FACS	JUL  Rady Rahban MD, FACS	JUL & NOV  Robert J. Troell MD, FACS

Combining demonstration with hands-on and classroom training, your esteemed faculty imparts the latest techniques for achieving aesthetic, long-lasting outcomes.

DEMO & OBSERVE

Sunday

BODY CONTOURING

- Gluteal, pectoral & calf implants

What do previous attendees—your peers!—think of our workshop? Take a look at a few of the typical comments we get:

"I like everything in this course. I will recommend it to all my partners."

"This is a must-do course! Lab, lectures, experience and staff were phenomenal!"

"Amazing course! Excellent didactic lectures and cadaver lab! A must!"

Also discussed each day are patient-specific implants, challenging cases and managing complications.

the pectoralis major muscle but above the pectoralis minor muscle. They are best inserted through an incision placed high up in the armpit (transaxillary approach) for a more hidden scar location."

For an excellent surgical discussion and demo for placing pectoral implants: Check out the video [Pectoral Augmentation Using Solid Silicone Implants](#) from J. Howell Tiller, MS, MD.
